

Kairos Construction

CAPABILITY STATEMENT

CAPABILITIES

Kairos Construction, (Women Owned Business) though a newly formed company, comes with over 20 years of experience specializing in Commercial TI's, Medical facilities, OSHPD, ISO Clean Rooms, Utility Construction, Ground ups, and high-end projects that require an excellent team of GC's, PM's, & CM's. We offer turn key projects from conception, preconstruction, value engineering and design build. Transparency is key to establishing a long-lasting relationship

Differentiators

The **Kairos Construction Company is** an organization that provides construction management, design build and general contracting services across the United States. The pure definition of Kairos says it all:

"A time when conditions are right for the accomplishment of a crucial action: "the opportune and decisive moment"

Pre-Construction Planning

Overall project success relies heavily upon the decisions made at the initial stages of the job. Combining skilled professionals with an open and collaborative approach, Kairos's comprehensive preconstruction services offer advantages on projects of various sizes and complexities, including:

- Providing the assessments and recommendations necessary to make timely, informed and data-driven business decisions.
- Better serving the interests of the project through relevant suggestions and hands-on partnership with owners,
 - General Contractor
 - Construction Management
 - Project Management
 - Design Build
 - Value engineering
 - Disaster response
 - School Construction
 - Medical buildings
 - Seismic retro fit
- Helping to manage the overall process by tracking details and holding team members accountable.

Tinley Park IL 60477

Our preconstruction services go well beyond traditional open-book cost estimating and value engineering to create more reliable schedules and estimates. We use the most relevant tools, technologies and processes, and get the right people involved at the appropriate time, to drive down project costs while maintaining design intent and the customer's overall goals and objectives.

Project Management

Whether you have a short-term project and need project managers, or a long-term project requiring a full needs assessment, project scoping, project development, and talent delivery, we'll provide the resources you need for your project-based endeavors. While remaining focused on your time, scope, and budget, we offer scalable project development and deployment

Construction Management

The Construction Manager and General Contractor (CM/GC) shall provide all the required services herein established including schedule management, cost management, estimates of probable construction cost, value engineering, constructability reviews, pre-bid and bidding phase, safety management, and final installation of all conventional facilities construction.
